Sir:

This statement is filed in the application identified above pursuant to 37 C.F.R. § 1.56. This statement supplements a statement filed on July 28, 2004 which cited five (5) references. A European Search Report has been received in the co-pending European patent application (Application No. 05252253.9-2318), and two of the four references first cited in the European Search Report dated August 4, 2005, not more than three months prior to this submission, have been

included with this statement; however, the other two cited references were cited, included and filed in the prior statement listed above. No representation is intended that a complete search has been made of the prior art or that no better art references than listed below are available. Pursuant to the Patent Office's waiver of 37 C.F.R. 1.98 (a)(2)(i), copies of U.S. patent references and/or publications have not been provided; however, a copy of the other reference is provided for review by the Examiner. The filing of this Statement shall not be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability as defined in §1.56(b).

Please charge any fees that might be due in connection with this Supplemental Information Disclosure Statement to our Deposit Account No. 10-0435.

Respectfully submitted,
